**Prisoners Escape Jail**

Taking advantage of the absence of the guard, Charles Tayman, three prisoners escaped from the jail here early last Friday night. Mr. Tayman had gone home for the night and failed to lock in a cell Edward Hartly who had been in jail some time on a bad check charge, whom he thought he could "trust". Either with an improvised key or with some old keys Hartly unlocked every cell in the jail. There were six prisoners in jail.

Three of the prisoners refused to go, but William Wagner, a Washington boy, charged with bootlegging, and Joseph Dent, a negro, who robbed a store near Old Brandywine, left with Hartly. One of the prisoners who refused to go came down the street and told what had happened.

Hartly and Wagner were caught on Saturday night at Beltsville by Deputy Sheriff Pamphrey. Dent has not been caught.

Of course, when a man accepts a position he should live up to its requirements, but everybody knows that the law requiring the jail guard to be in constant attendance day and night, calls for an impossible task. Consequently, there have been a good many escapes or near escapes while guards were "down town". Either there should be two guards, one for the day and one for the night or there should be living rooms in connection with the jail and the guard be required to live in them.

Mr. Tayman has been replaced by Mr. Albert Michel as guard.

**Silesia News**

The Musicals and Entertainment held by the Broad Creek Citizens' Association Saturday, September 9th, at the Silesia School, was all that the name implied as the program was composed almost entirely of musical numbers which afforded entertainment for young and old alike. Those who aided the famous Silesia Orchestra with musical selections and to whom especial credit is due for the part they took in the entertainment are Mr. Roberts, vocal and piano; Mrs. Marcella Kotcamp, piano; Miss Hildegard Jaeger, piano; Mr. George J. Jaeger, violin, and vocal; Dr. and Mrs. A. Viehoever, piano and vocal; Mr. Rudolph F. Adler, clarinet. Mr. C. M. Horgan of the Horgan-Roland Company of Washington gave a radio demonstration, and although Saturday evening is not a favorable one for a good reception those who had an opportunity to listen, enjoyed the experience immensely. The members of the Association feel that they owe a debt of gratitude to Mr. Herman Richards of the firm of Geo. W. Spier, Jewelers, Washington, D. C. through whose generosity and public spirit it was possible to get a beautiful bar pin at a greatly reduced figure. A substantial sum was realized for the Association by the raffle of this pin, the lucky winner being Mr. Rudolph F. Adler. To tickle the palate of the ever-hungry pleasure seeker, all kinds of good things to eat were dispensed during the entire evening. There was a large attendance and "a good time was had by all."

**County Newspaper Men Meet**

The Maryland Press Association met at Westminster on Monday for the purpose of discussing matters affecting the county newspapers. One of the principal features was the discussion of the small compensation allowed for publishing the Governor's Proclamation under the system now in vogue. Governor Ritchie was present and frankly answered all questions put to him concerning the matter. A committee was appointed to arrange an equitable rate for State advertising based upon the commercial rate and circulation.

At the dinner in the evening, Governor Ritchie, Ex-Senator Blair Lee and others spoke. Governor Ritchie spoke of the things accomplished by the Legislature at Annapolis last winter. Senator Lee's address was the first he has made for several years. He denounced Samuel Gompers and all that he stood for.

He said, in part, that "Gompers has stated that a man has the fundamental right to quit work when he likes," but, the Senator continued, "he has not the right to quit work in millions, storm cities and destroy life and continue to do what he pleases, regardless of consequences. I have the right to walk in my garden, but I have not the right to tramp upon the baby's face which happens to be in the path.

"No more has Gompers and the combinations of labor the right to stop work that will cause suffering among women and children." Mr. Lee denounced those who try to accumulate the wealth of the nation in the hands of the few as "being as barbaric as their wives, who wear the booty upon their persons; but far more dangerous today are the combinations of labor."

He told the editors that it is their duty to educate the people and bring home "to the laborer the fact that he has not the right to stop work in combination." He saw, he said, the domination of a class with the one idea that eventually will lead to the destruction of the nation.

His topic was "Peace and Prosperity" and he said each depends upon the other. He spoke of the intimate relations of county papers to the people and urged the editors to do everything to allay the passions that are developing daily.

Attorney-General Armstrong, the last speaker of the evening, told what a wonderful group of men he found the newspaper men to be.

"Right now it is the duty of the press to up-hold public officials regardless of what personal opinions are. The very safety of the Government today depends upon the support of those in authority."

He concluded by saying the press can do a great work right now in preventing changes by damages and allowing them to be made only by thoughtful men.

Messrs. Frederick Sasser and Jas. Carley, of Laurel, attended from this county.

He told the editors that it is their duty to educate the people and bring home "to the laborer the fact that he has not the right to stop work in combination." He saw, he said, the domination of a class with the one idea that eventually will lead to the destruction of the nation.

His topic was "Peace and Prosperity" and he said each depends upon the other. He spoke of the intimate relations of county papers to the people and urged the editors to do everything to allay the passions that are developing daily.

Attorney-General Armstrong, the last speaker of the evening, told what a wonderful group of men he found the newspaper men to be.

"Right now it is the duty of the press to up-hold public officials regardless of what personal opinions are. The very safety of the Government today depends upon the support of those in authority."

He concluded by saying the press can do a great work right now in preventing changes by damages and allowing them to be made only by thoughtful men.

Messrs. Frederick Sasser and Jas. Carley, of Laurel, attended from this county.

At the dinner in the evening, Governor Ritchie, Ex-Senator Blair Lee and others spoke. Governor Ritchie spoke of the things accomplished by the Legislature at Annapolis last winter. Senator Lee's address was the first he has made for several years. He denounced Samuel Gompers and all that he stood for.

He said, in part, that "Gompers has stated that a man has the fundamental right to quit work when he likes," but, the Senator continued, "he has not the right to quit work in millions, storm cities and destroy life and continue to do what he pleases, regardless of consequences. I have the right to walk in my garden, but I have not the right to tramp upon the baby's face which happens to be in the path.

"No more has Gompers and the combinations of labor the right to stop work that will cause suffering among women and children." Mr. Lee denounced those who try to accumulate the wealth of the nation in the hands of the few as "being as barbaric as their wives, who wear the booty upon their persons; but far more dangerous today are the combinations of labor."
